COTS Rugged Military Grade 5U Rackmount Computer System

Models M5U2210, M5U2211

Assembled in the USA ISO 9001:2008 Certified ITAR Registered

Our rugged M5U-22 can be used for many military in-theater dataintensive applications such as persistent surveillance, simulation, and radar processing applications. With the correct configuration, the M5U-22 can also serve as a GPU Server. It contains our proprietary SysCool® thermal management system, which extends the life of the computing system, reduces power consumption, and lowers overall system noise levels.

Specifications for our standard products can always be customized to fit your unique application requirements.

In-house Engineering Department

Rapid Prototyping

CPU & Memory Options

- Single or Dual Intel® Xeon® E5 Series
 - o CPU options up to 2.1GHz, 8 Cores
 - Memory options up to 512GB

Drive Capacity

- 4(x) 3.5" Drive Bays
- 1(x) Slim Slot-Fed Optical Drive

Applications

- Airborne Operations
- Land-based Operations
- Seaborne Operations
- Telemetry
- · Diagnostics
- Simulation
- C4ISR
- Communications
- Imaging
- Persistent Surveillance
- UAVs
- Automation
- Severe Environment Operations

Harsh Environments

Designed to meet or exceed MIL-STD-810G to the below specifications.

ALTITUDE

12,000 ft Operational, 40,000 ft Storage MIL-STD-810, Method 500.5

HIGH TEMPERATURE

50°C Operational, 70°C Storage MIL-STD-810, Method 501.5

LOW TEMPERATURE

0°C Operational, -20°C Storage MIL-STD-810, Method 502.5

HUMIDITY

5-95%, Non-condensing MIL-STD-810, Method 507.5

TRANSPORT VIBRATION

US Highway Truck and Air Transport MIL-STD-810, Method 514.6

BENCH HANDLING SHOCK

Procedure VI, 20G @ 11ms MIL-STD-810, Method 516.6

COTS Rugged Military Grade 5U Rackmount Computer System

Chassis Specifications

DIMENSIONS

19" X 8.75" X 22" (482.6mm X 222.3mm X 558.8mm)

WEIGHT

62 pounds, weight varies by configuration

ENCLOSURE FEATURES

Construction

Front Panel: 0.235" milled 5052-H32 aircraft-grade aluminum Enclosure Body: 0.093" 5052-H32 aircraft-grade aluminum Rear Slot Panel: 16 gauge CRS, zinc plated with 10-32 grounding lug

Front Door

Aluminum, formed and welded, with three captive closure fasteners Milled channel with RF/EMI/environmental gasket Attenuating EMI honeycomb filter with 45 PPI (washable) air filter rated to UL 94 HF-1

Drive Capacity

4(x) 3.5" drive bays

1(x) slim slot-fed optical drive

Indicators

Power on, disk access, fan failure and over temperature indicators

Switches

Power and alarm reset switches behind front door

Powdercoating

Black per MIL-PRF-24712, Type IV, Class 3, Cardinal C214-BK110 polyester semi-gloss, fine texture

Plating

Chem-Film per MIL-C-5541F, Class 1A

FRONT USB PORTS

(2x) ports USB 2.0

SYSTEM COOLING

(3x) 120mm, 150 CFM, 200K hour MTBF cooling fans Proprietary SysCoolTM intelligent adaptive fan controller and temperature alarm circuit board

MOTHER BOARD CAPACITY

Designed for motherboards up to 15" x 13"

POWER SUPPLY

Redundant 1500W 110/220 Volt AC Other power options available

LCD Power Alternative

Chassis Plans' 2U-5U rackmount computer systems are designed with a removable back plate that allows a 12V power cord to run from the computer's power supply to a display or keyboard video monitor. This optional feature, the Exterior Power Jack, is available for most Chassis Plans' monitors.

By running the display with the computer systems' power supply, this Exterior Power Jack option can provide many benefits:

- Reduction in the number of required cables
- Elimination of additional equipment, i.e., a power brick
- · Reduction in total system weight and cost

To enjoy these benefits, power up your new display with this Chassis Plans' server.

Who We Are

CHASSIS PLANS

- Chassis Plans designs, fabricates and integrates standard and customized high-performance computing platforms and LCD monitors for military, industry, and commercial applications.
- Using COTS components, Chassis Plans provides solutions for customers who need reliable systems that will operate in a variety of harsh conditions and who require revision control and hardware consistency for multi-year programs.
- Chassis Plans is an ITAR Registered and SBA-certified small business that has been operating in Southern California for over a decade.

ENGINEERED TO YOUR SPECIFICATIONS

- In-house engineering department
- Design and build of rapid prototypes. Experience with solving difficult customer application problems through knowledge of the industry and custom system design and manufacturing capability
- Our Engineers use Solid Works 3D CAD modeling software for mechanical design and thermal simulation
- Design experience with MIL-STD-167, MIL-STD-461, MIL-STD-810, and MIL-S-901, in addition to FCC, UL, CE, and country specific agency requirements

YOUR CONFIGURATION. ONE PART NUMBER.

- It's our mission to make your life easier. Our Sales Engineers
 will help you select the right configuration for your project,
 making sure the details are analyzed and that the system
 meets your specifications.
- One part number means easier procurement and less paperwork for you.
- Dedicated Sales and Program Managers.
- · Last time buy opportunities for end-of-life components.

FACILITY AND TEST

- All integration work is performed in a state-of-the-art, ESD-controlled facility
- Our facility has 23,000 sqft and has dedicated 12,000 sqft to manufacturing and 3,000 sqft to engineering
- Operate to anti-static standard ANSI/ESD S20.20-2007 and electronics assembly standard IPC-A-610, Revision E-2010

QUALITY COUNTS

- ISO 9001:2008 Certified
- 100% system inspection before shipment
- All integrated systems undergo a minimum 24-hour system test and burn-in before shipment to the customer
- Assistance with 3rd party verification of system specifications
- 2-year warranty on all integrated systems and LCD monitor products
- Assembled in the USA
