

COTS Rugged Military Grade 1U Rackmount Keyboard Video Monitor

MILITARY | INDUSTRIAL | COMMERCIAL

Screen Size 17", Side-Access Keyboard and LCD Monitor

Assembled in the USA
ISO 9001:2008 Certified
ITAR Registered

The CCXR-17 is a unique side access, space efficient, military grade, high performance 1U rackmount clamshell LCD keyboard drawer offering a 17-inch display. The unique side access feature minimizes required aisle space by placing the operator next to the rack instead of positioned in the aisle. There is no other 1U LCD keyboard which offers this space saving feature (patent pending).

Specifications for our standard products can always be customized to fit your unique application requirements.

Power Alternative

Chassis Plans' 2U-5U rackmount computer systems are designed with a removable back plate that allows a 12V power cord to run from the computer's power supply to a display or keyboard video monitor. This optional feature, the Exterior Power Jack, is available for this monitor.

By running the display with the computer systems' power supply, this Exterior Power Jack option can provide many benefits:

- Reduction in the number of required cables
- Elimination of additional equipment, i.e., a power brick
- Reduction in total system weight and cost

To enjoy these benefits, power up your new display with a Chassis Plans' server.
